# FAN-SEAT BACKPACK PONCHO

**The Stadium Wrap** is a multi-function but unique product. Is it a padded water-proof fan-seat? Is it a back pack? Is it a poncho? Yes, to all of the above. The product is packaged in its own back pack which can be used for one of its many functions as a seat. The logo shows on the back of the back pack. The seat cushion (conveniently hidden in its own pocket) is padded with closed cell poly foam that resists water absorption. There is a strip of reflective material across the back of the back pack for night time visibility. If it starts to rain or the weather turns cool, you can unfold the poncho that is inside the back pack and put it on. The poncho is made of rip stop nylon and comes with either a fleece lining or a mesh lining for warmer climates. Side seam zippers close it up and one size fits all. The seat cushion is strategically placed so that it cushions you when you sit. When the weather changes or you are ready to leave, the poncho folds into itself to become a back pack again. Available colors are red, navy, black, burgundy, and royal.
